

anti-rat α/β TCR FITC-conjugated

FITC- conjugated monoclonal antibody R73 to rat α/β TCR

Cat-No: **23155213**

500 μ l

Clone: R73

Specificity: This anti-rat α/β T cell receptor monoclonal antibody detects a T cell-specific heterodimeric 40 and 46kDa cell surface protein that is expressed on the vast majority, but not all, peripheral rat T cells. It induces blastoid transformation and IL-2R expression in T cells when cross linked on an artificial surface. It also induces cell proliferation when exogenous IL-2 is added.

Isotype subclass: Mouse IgG1

Form: The purified antibody is conjugated with Fluoresceinisothiocyanate (FITC) under optimum conditions. The reagent is free of unconjugated FITC and adjusted for direct use. No reconstitution is necessary.

Physical state: Liquid

Buffer/Additives/Preservative: PBS containing 1 % BSA and 0.09 % sodium azide (pH 7.2).

Expiration date: The reagent is stable until the expiry date stated on the vial label.

Storage conditions: Store at 4 °C. Avoid prolonged exposure to light.

Application: Flow Cytometry and immunohistochemical staining on frozen sections

References: 1. Hunig, T., Wallny, H.J., Hartley, J.K., Lawetzky, A. and Tiefenthaler, G. (1989), A monoclonal antibody to a constant determinant of the rat T cell antigen receptor that induces T cell activation, J. Exp. Med. 169, 73-86

Warning: Sodium azide is harmful if swallowed (R22). Keep out of reach of children (S2). Keep away from food, drink, and animal feedingstuff (S13). Wear suitable protective clothing (S36). If swallowed, seek medical advice immediately and show this container or label (S46). Contact with acids liberates very toxic gas (R32). Azide compounds should be flushed with large volumes of water during disposal to avoid deposits in lead or copper plumbing where explosive conditions can develop.

This material is offered for **research only**. Not for use in human. For in vitro use only. ImmunoTools will not be held responsible for patent infringement or other violations that may occur with the use of our products.
