

## mouse anti-rabbit PER-conjugated

**PER-** conjugated polyclonal antibodies to rabbit immunoglobulins (IgG + IgM)

Cat-No: **24549929**

500 µl

**Product:** Peroxidase-conjugated AffiniPure F(ab<sup>1</sup>)<sub>2</sub> Fragment Mouse anti-Rabbit IgG + IgM (H+L) (minimal cross-reaction to Human, Bovine, and Horse Serum Protein).

**Purity:** The antibody was isolated from antisera by a combination of pepsin digestion and immunoaffinity chromatography using antigens coupled to agarose beads. Fc fragments and whole IgG molecules have been removed.

**Specificity:** Based on antigen-binding assay, Western blotting, and/or ELISA, the antibody reacts with the light chain on rabbit IgG and with the those common to other rabbit immunoglobulins. The antibody does not react with the heavy chain of rabbit IgG. This antibody has been tested by ELISA and/or solid-phase adsorbed to ensure minimal cross-reaction with human, bovine, and horse proteins, but the antibody may cross-react with immunoglobulin from other species.

**Physical state:** Liquid

**Buffer/Additives/Preservative:** PBS + 50% Glycerol + 15 mg/ml BSA

**Preservative:** None

**Warning:** Use of sodium azide as a preservative will substantially inhibit the enzyme activity of horseradish peroxidase

**Storage and Stability:**

Storage at -18 °C is recommended. Do not freeze and thaw more than three times. Do not use this product beyond the stated expiration date.

**Application:** ELISA, WB

**Warning:** Sodium azide is harmful if swallowed (R22). Keep out of reach of children (S2). Keep away from food, drink and animal feeding stuff (S13). Wear suitable protective clothing (S36). If swallowed, seek medical advice immediately and show this container or label (S46). Contact with acids liberates very toxic gas (R32). Azide compounds should be flushed with large volumes of water during disposal to avoid deposits in lead or copper plumbing where explosive conditions can develop.

This material is offered for research only. Not for use in human. For in vitro use only. ImmunoTools will not be held responsible for patent infringement or other violations that may occur with the use of our products.
